

Update #25/#26 September 7, 2018

Well, folks. Words almost fail me. Almost.

The agenda for the **September 11** City Council meeting is found here: <http://scsire.cityofsantacruz.com/sirepub/mtgviewer.aspx?meetid=971&doctype=AGENDA>

Be sure to start reading it, if not tonite, then tomorrow at the latest. Don't read it on a cell phone. Sit down and read it on a full sized screen! ***It is worse than we thought possible.*** Why should we be surprised?

After reviewing the staff report, do one of two things and please consider doing both:

- Attend the meeting (begins at **7 pm on 9/11**).
- Email (citycouncil@cityofsantacruz.com) your opposition to the Project as soon as you have read the staff report in the agenda packet.

Correspondence received by the Council as of today totals 17 opposed and 11 supporting the Project. One hundred and seventeen (117) of you are receiving this update (7 of you are included in the 17 opposed already received by Council). We must generate another 100 emails of opposition to the City Council in order to have any chance of stopping this absurd scheme being foisted upon the Council and the public by city employees Nemitz, Dettle, Libscomb and Bernal and their ilk.

Please be firm but not disrespectful in your emails. We

want them hearing us, not shining us off as louts.

Look for DBTL's official letter to the City Council within a couple of days.

Jean
