

Update #46 - November 15, 2019

Here's what's up for now:

- For those of you who may not have seen our Guest Commentary on the Preliminary Report from Jayson Architecture published in the Sentinel, go here <https://dontburythelibrary.weebly.com/news-and-articles.html>
- For some preliminary visuals from Jayson Architecture go here <http://www.jaysonarch.com/> and click on the middle picture that says Santa Cruz Downtown Library. You'll see three pictures.
- Important Dates: November 15 - an internal Subcommittee meeting (no public observation)
- December 13 - Community Presentation of Jayson Architecture's **Final Report** (4:00 - 5:30 in the downtown library upstairs meeting room)
- January 28 (tentative) - Subcommittee presents its recommendation(s) to the City Council

We're planning to wait until we know what the Final Report says before speaking publicly about the report. We'll likely know something before December 13 and if we do, we'll send an alert and request for action (especially emails to the Subcommittee!).

Until then, stay informed of anything newsworthy by checking our home page from time to time. Its <https://dontburythelibrary.weebly.com/>
